Flora's group created an awareness of the law by distributing bumper stickers, flyers, key chains and mailers on campus, by advertising in the school newspaper, and by discussing vehicle laws with students at seminars.

Welcome

Welcome from Dr. Hulbert

I admit to being prejudiced, but I believe you have chosen a great place to go to college. Rose-Hulman Institute of Technology (known as Rose Polytechnic Institute for its first 100 years), has been and is on the frontier of engineering and science education.

In the 1880's the first degree in Chemical Engineering was given at Rose Polytechnic Institute. In the 1960's Rose Poly was a pioneer in bioengineering education. In the 1980's Rose-Hulman is the only educational institution offering a baccalaureate degree in Applied Optics; 1 of only 3 engineering schools offering language instruction in Japanese; has the largest course offerings of any technological institute in Asian Studies and is one of the very few educational institutions with Technical Translator Programs in German and Russian.

Rose-Hulman Institute of Technology has some of the finest undergraduate engineering and science laboratories in the entire country. In the past 5 years Rose-Hulman has spent approximately \$25 million in building, refurbishing and reequipping its academic facilities (all of it paid for by gifts, none of it from tuition dollars), and has an exceptional beautiful campus. But the most important thing about Rose-Hulman is the quality of its people. We have an exceptionally talented faculty, a very dedicated staff and a great student body.

There is no question but what you are going to receive a superior engineering and science education; one which will allow you to compete in the years to come very

Dr. Hulbert

The future standard of living of our country is in large measure related to the technological expertise and creativity of our engineers and scientists. More importantly, the quality of life in our future world is going to be largely related to how liberally educated and how humanized our engineering and science graduates are.

I would like to tell you a story. It is about a wise man who lived long ago and very far away. This wise man was very kind and loving and was, consequently, much beloved by the people of this ancient land.

In this same land, there was a nobleman, a Prince, who hated this wise man. He saw the wise man as taking from him the love of the people. The people listened to the wise man, not the Prince, and that angered the prince beyond belief.

One day, the Prince said to his followers, "I have a plan whereby I can discredit the wise man; a way in which I can make him appear to be a fool."

"Each day, the wise man goes to the marketplace where he speaks to the people and gives them advice. Tomorrow, when the people gather, I will go to the square disguised as a peasant. In my hand I shall hold a white dove. When the crowd has gathered, I shall raise my voice above the crowd and say, 'Wise Man! I have a simple question for you. This dove which I hold in my hand - is it alive or dead?'"

"Now, while this appears a simple question, it is not, for if he says

it is dead, I will open my hand and let the bird fly away. If he says it is alive, however, I will crush the bird in my hand and let it fall dead to the ground. Either way, he will be mistaken; either way he will appear to have made a mistake; either way it will appear that he cannot even tell the difference between a living and a dead bird; either way he will be discredited in the eyes of the people and will lose their love."

The next day, and true to his word, the Prince disguised himself as a peasant and, taking a white dove, he went to the marketplace. There he waited until the crowd had gathered and the wise man appeared. He made his way to the front of the crowd and raised his voice.

"Wise Man!" he shouted, "I would ask you a simple question. This dove which I hold in my hand, is it alive or is it dead?"

The crowd grew quiet, and all eyes turned toward the wise man. The wise man paused, looked at the Prince, and said, "That which you hold in your hand. It is...what you make of it."

It is what you make of it. A wise answer from a wise man. Whether the dove which the Prince held was alive or dead depended upon the Prince and what he did with what he had. Your life and our world is largely what you make of it.

If you had a bank that credited your account each morning with \$86,400, that carried over no bal-

ance from day-to-day, and allowed you to keep no cash in your account, and every evening canceled whatever part of the amount you had failed to use during the day, what would you do? Draw out every cent, of course!

Well, you do have such a bank, and its name is 'time'. Every morning it credits you with 86,400 seconds. Every night it rules off, as lost, whatever of this you have failed to invest to good purpose.

If you fail to use the day's deposits the loss is yours. However, because of your God given talents, eventually society in general will be the poorer.

Sincerely,
Samuel F. Hulbert

Campus News

Security revamps campus vehicle regulations

In response to outcries from students, the Rose-Hulman department of Security and Traffic Safety has revised its system of handling traffic violations. The most noticeable change is the drop in the cost of a violation. Most parking fines have been reduced from \$25 to \$10, with a 50% discount available if paid within 72 hours. In addition, the Security department has made it easier to pay fines. Courtesy boxes have been placed around campus to enable violators to pay fines 24 hours a day.

A partial listing of the changes in fines has been printed below. A complete list of traffic regulations can be obtained from the Security office located across from Skinner Hall.

Vehicle registration for this year will be held in the Union lobby during the first week of classes and next to the mailroom during the second week of classes. Parking stickers can also be obtained from the Security office any time. In addition to handing out parking stickers, Vince and Larry, the seat belt crash dummies will be on hand to remind everyone of Indiana's mandatory seat belt law.

The Security officers would like to remind everyone that they provide many services to the Rose community. These include retrieving vehicle keys, helping with a flat tire, jump starting your battery and many more. The officers are here to assist you and can be reached at extension 410 if you have any problems.

- | | | |
|---------------------------------------|------------------------|--------------------------|
| 1. No registration | First Offense \$ 5.00 | <input type="checkbox"/> |

| 3. Reserved for Individuals | \$10.00 | <input type="checkbox"/> |
| 4. Reserved for Visitors | \$10.00 | <input type="checkbox"/> |
| 5. Exceeding Campus Speed Limit | \$10.00 | <input type="checkbox"/> |
| 6. Fire Lane/Restricted Area | \$20.00 | <input type="checkbox"/> |
| 7. Reckless Driving | \$30.00 | <input type="checkbox"/> |
| 8. Other | \$ 6.00 | <input type="checkbox"/> |

★ 50% DISCOUNT if Paid Within 72 Hours of Issuance ★
\$2.00 Additional if not paid within 7 DAYS of Issuance

Fines may be paid 24 hours per day by enclosing payments in the envelope, sealing it, and by depositing it in a courtesy box at the entrance of Moench parking lot, Speed parking lot, or near the mailroom. If immediate receipt is necessary, you must clear your fine with the cashier in the Student Bank during regular business hours, and within 72 hours of receiving your citation.

UNPAID FINES ASSUME THE SAME STATUS AS OTHER COLLEGE DEBTS!

Appeals must be filed in the Department of Security and Traffic Safety on the appropriate form within 72 Hours of issuance.

Pickett named Fulbright Scholar

A year from now Japanese students may be learning about American arms and strategy from Rose-Hulman professor William Pickett.

Pickett, professor of history at Rose, recently was named a Fulbright Scholar by the Council for International Scholars in Washington, D.C. and will teach at a Japanese university for 10 months beginning next spring.

The Fulbright Scholar program is funded by both U.S. and foreign governments and its purpose is to facilitate the exchange of scholars in order to allow the exchange of cultures between nations.

In addition to providing Japanese students with United States history taught by an American historian, Pickett said, "My experiences in Japan will aid the institutional effort at Rose to teach about Japanese society, its past and present. Our program in East Asian studies will surely be enriched."

He pointed out that in his application for a Fulbright grant he was assisted by the Rose administration as well as his colleagues in the East Asian studies program. "It was a team effort," he affirmed, "which reflects a commitment to teaching

William Pickett

Japanese and East Asian cultures at Rose-Hulman."

Pickett, one of seven Fulbright Scholars chosen from 35 applicants, said he would know soon where he will be located in Japan. "It is possible I will be assigned to two universities, teaching a course at each one," he said. "I also don't know yet what courses I'll be teaching, though they may well be my surveys in American history, my course in American diplomacy or the one in American military history, "American Arms and Strategy."

The graduate of Carleton College who earned his doctorate in

history from Indiana University in 1974 said he and Rose stand to gain in several areas from his Fulbright experience.

"By the time I return, I should have a much better sense of Japanese perceptions of American society, and possibly misperceptions that I hope I can help to change," Pickett said.

"Japanese responses to my teaching will provide new insights for my research and teaching of American history," he added. "At the same time they will help me refine my understanding of Japanese history and culture for my newly developed course in 20th century Japanese-American relations."

"The contacts I make in Japan could be valuable as Rose develops its programs in the years ahead and sends its students to study there," he concluded.

The Fulbright Fellowship calls for Pickett to teach in Japan from April 1, 1989 to Jan. 31, 1990.

...Accelerated

Enter college going in the right direction with one of the new computers from Zenith

It's a brand new course. Zenith announces a smooth road ahead in college with new personal computers available for fall 1988.

Just off the fast track, these sleek, small and sophisticated rollers are built with the college student in mind for today and the future professional tomorrow.

One look at the syllabus and you'll see why this new class is so popular. The semester starts off in high gear with an introduction to the new road scholars: the Zenith Super Sports & LIMITED EDITION Super Sport.

These rugged on-road, off-road portables really show their stuff even under the worst driving conditions. And without being gas guzzlers. With "intelligent power management", power is rationed to subsystems for maximum battery operation. Giving you great mileage.

Whether you choose the LIMITED EDITION model with an internal 1200 baud modem or the Super Sport with RAM option of 1.64MB with EMS, even the most advanced course is clocked in record time.

Setting the curve in its class is the new Zenith Z-286 desktop PC. This high speed racer runs at 8MHz with zero wait states, is AT compatible and can move up to MS OS/2 technology in the future. And talk about roomy. The Z-286 comes complete with 1MB RAM with expanded leg room capabilities - to 6MB - without using an expansion slot. Plus a single 3.5" 1.44MB media sensing floppy drive lets you "read and write" 720K disks.

It's an accelerated course. The new class of computers from Zenith put you on the fast track in college and get you going in the right direction.

Z-286 LP Personal Computer System

Sports

Engineers prepare for another successful season

After compiling the best small college record in the state during the past two seasons, 17-3, the Rose-Hulman Institute of Technology football team will be counting on 12 returning starters to provide the talent needed to face a schedule that includes seven road games.

Last year, the Engineers compiled the most wins in the school's history and the first national ranking ever by an Engineer squad in route to a 9-1 record.

"As a coaching staff we have to be careful not to look to the past. We have to take everything week to week, season to season," Duncan said. "We must be careful not to draw comparisons to last year. This is a different team."

Fans will see many of the same faces though, especially on offense as eight starters return.

Synonymous with the word "offense" the past two years is senior quarterback Jason Duff, owner of every school passing record. Last year, Duff threw for more than 1,800 yards and 15 touchdowns while establishing four new career passing marks and broke two season records he had established in 1986. He will team up with senior tailback Tony Broadnax, a 1,000-yard gainer last year, to give the Engineers a formidable 1-2 offensive punch.

Also back in the fold on the offensive side of the line are a fleet of outstanding receivers and a line anchored by senior tackle Keith Woodason, an All-College Athletic Conference performer who also was named to the District Five All-Academic team.

Also returning are junior placekicker Shawn Ferron who established a kick-scoring record with 49 points last year. Ferron booted eight of 13 field goals and 25 of 28 extra-points.

Defensively, there are a lot of shoes to fill with just four starters returning. The most notable hole is at noseguard where All-CAC Chris Szaz will have to be replaced. Easing the loss, however, is the return of Pat Thomas. He teams with another senior, Greg Kremer, to give the Engineers possibly the best crew of lineback-

ers in the conference. Thomas established a school record with 140 tackles last season while Kremer, a member of the Academic All-America second team in 1987, is the Rose-Hulman record-holder for career tackles.

Ken Pierce, senior defensive back and an All-CAC selection in 1987, is the lone returnee in the secondary while junior Brett Starr will man his defensive end position again.

"Last year the big question mark was the offensive line," Duncan noted. "This year we graduated seven people on defense. But I think we have the kind of players we need to put together a good defense. But we have to do it soon. We can't wait until mid-season."

The team has adopted the slogan "Road Warriors" and for good reason. Seven road games are included in the 1988 ten-game schedule.

"We're all optimists by nature," Duncan admitted. "The staff and the players certainly have high expectations. But with seven road games and a tougher schedule, 7-3 could be considered a successful year, provided we prepare and perform in a winning manner each week."

The team has adopted the slogan "Road Warriors."

New opponents will include Millsaps College, the University of Chicago and the University of Evansville, which is in its final season of NCAA Division II play.

The Engineers will be competing for the College Athletic Conference football title for the last time. Next year, Rose-Hulman will become a new member of the Indiana College Athletic Conference.

A position-by-position look at this season's Rose-Hulman team follows:

[Quarterback:] Duncan pointed out that Duff has gotten better with each year, and is hopeful that

The Rose gridders hard at work.

trend doesn't stop now. "He is comfortable with the offense and has more respect for the football, now," Duncan said. The third-year coach also realizes the importance of bringing along an adequate backup. There will be several reserve signal-callers on the squad, however, junior Andy Richards is No. 2 going into the season.

[Running back:] Broadnax posted the fourth best rushing season ever at Rose-Hulman last year with 1,031 yards. Coupled with the 38 passes he caught, he was the team's Most Valuable Player on offense. "He started to do things that a good ball carrier does," Duncan said. "He takes coaching well. I hope he picks up where he left off." Fullback John Collett graduated last spring and Duncan will move sophomore Neal Rumsey to fullback. Rumsey substituted at tailback last year.

[Receivers:] "Our main problem is getting all of them the football," Duncan moaned. "Our group of receivers is diverse. Each one has talents of his own." Among those are junior Brian Bartley, a track all-American who is the quickest receiver, sophomore Ed Huonder, a great anticipator, and Steve Broderick, who

has excellent field presence, according to Duncan. Senior tight end Joe Leslie "may be the key-stone, he may be the one who holds everything together," Duncan said.

[Offensive line:] "The key to any offense is a good line," Duncan said. "These guys really do an excellent job." Woodason will anchor a line that lost just one mem-

"We must be careful not to draw comparisons to last year. This is a different team."

ber — guard Dave Suder and Duncan believes he has several good candidates to fill the hole. Other starting members should be senior Jay Binder, senior Curt Roupe and junior Brian Runkle.

[Defensive line:] "It will be awfully hard to replace Szaz," Duncan said. "He was one of those guys who quietly did great things." Duncan will also have to replace the likes of Kurt Gobreski and Greg Gondeck on the line as well. Junior Brett Starr, who was fourth in tackles a year ago, is the lone returnee and will play at defensive end.

[Linebackers:] Thomas and

Kremer are "the strength of the defense," Duncan said. "I anticipate that again this year. They each have their own style but they both have a knack of getting to the ball." Thomas ranked first in tackles and Kremer was second with 113 last season. Doug Ankney, a former All-CAC selection, will have to be replaced at the other line-backer spot.

[Secondary:] Pierce is the cornerstone of the secondary, being the lone returnee and an all-conference performer. A year ago he intercepted five passes and broke up six more. He also blocked a field goal and a PAT attempt. "I'm not as concerned about the secondary as I am with the defensive line," Duncan said. "We will flood the positions with viable candidates to see who can play and who can't, then we'll adjust."

[Special teams:] Both placekicker Shawn Ferron and punter Steve Dinsmore improved as the season progressed and are expected to continue that improvement. "With Steve we were patient. We let him come along and, to his credit, he did improve," Ferron, a junior, set a school record for kick scoring with 49 points a year ago while Dinsmore finished third in the CAC with a 34.9 average.

Rose boasts four pre-season All-Americans

Four Rose-Hulman football players have been named NCAA Division III preseason all-Americans by the College Football Preview.

Engineers selected by the national publication were senior quarterback Jason Duff, senior tailback Tony Broadnax, senior offensive lineman Keith Woodason and senior linebacker Pat Thomas.

Duff owns every Rose passing record and threw for more than

1,800 yards and 15 touchdowns a year ago.

Last year, Broadnax became the fourth Rose runningback to gain more than 1,000 yards in a season. he gained 1,031 yards on the ground, caught 38 passes for 293 yards through the air and returned 20 kickoffs for a 22.4 yard average.

Woodason anchors the line for the most potent offense in the College Athletic Conference, averaging better than 350 yards per

game.

Thomas was named the CAC's Defensive Player of the Year after setting the school record for tackles in a season. Among his 140 tackles, he was credited with three sacks and 17 tackles for loss. He also recovered three fumbles, intercepted a pass, and blocked a field goal attempt against Taylor University to preserve a Rose victory.

The Engineers open the season at Millsaps College in Jackson, Miss., on Sept. 3.

Mutchner resigns after 25 years

John Mutchner, head basketball coach at Rose-Hulman, resigned on July 25, 1988 ending a successful 25-year career at the college.

He had also served as the college's athletic director and baseball coach. In 1984, he relinquished his duties as athletic director to concentrate on coaching basketball and to assume the duties of assistant to the president.

"I am thankful for the opportunity to work at such a very special place for the last 25 years," Mutchner said.

"As proud as I am of the success we have had with our basketball teams, I am even more proud of what we have been able to do with the entire athletic program," he emphasized.

"The last 25 years have been extremely enjoyable and professionally rewarding. I gave it my best shot, left no stones unturned and wouldn't change a thing."

"I simply want to take some time and think about what I want to do with the rest of my life," Mutchner, 54, explained.

"I have been fortunate in serving two presidents, John Logan and Samuel Hulbert, who cared deeply about the athletic program and its significance to the overall educational environment at Rose-Hulman," Mutchner stated.

President Hulbert praised Mutchner by saying, "His contributions to Rose-Hulman are

many and it is our students who have benefitted most from his outstanding leadership as a coach and an athletic administrator."

"John Mutchner came to the college at a time when its athletic program was in a crisis situation. He successfully met a difficult challenge and created an athletic program that is now a model of what small-college athletics should be," Hulbert said.

Mutchner developed a basketball program that is nationally recognized for its successes on the court and for the unique overseas tours that enabled Engineer teams to play throughout Europe.

His basketball record at Rose was 341-295. Mutchner's teams appeared in the NCAA III post-season tournament five times, and won six conference titles.

Under Mutchner's leadership, the Engineers were nationally ranked among the top 20 teams in NCAA III in four different years and his squads recorded 15 winning seasons including ten in a row. He is listed 19th among NCAA III coaches in total victories.

During the 1977 and 1978 seasons his teams compiled a 28-game winning streak which was the nation's longest by any NCAA squad during that period.

His most successful season was in 1976-77 when the Engineers compiled a 24-4 record and finished among the final eight teams in the NCAA Division III national tournament.

His teams were also well-known for their travel schedule. Five times Mutchner led teams to play in Europe. They also competed in Mexico, Hawaii, Canada and the Bahamas. Last year, the Engineers became the first American college team to play in the Soviet Union.

When he began his career at Rose in 1963, none of the college's athletic teams had recorded a winning season during the previous five years. However, in his 21-year tenure as athletic director, Engineer athletes would earn academic and athletic All-American honors, qualified for and won an NCAA III individual national championship, and Rose teams won numerous conference titles in all sports.

In 1983, Rose-Hulman named its athletic hall of fame, the John Mutchner Hall of Fame Room.

Visiting coaches and fans may remember Mutchner more for being the person who literally put the bang into Rose athletics.

The cannon and sirens that greet the Engineer basketball team when it comes onto the floor at Shook Memorial Fieldhouse were first used by Mutchner during the early days of his career at Rose when spirit and enthusiasm needed a boost.

It was not long before that unique introduction to Rose-Hulman basketball became a well-known trademark and tradition associated with a successful athletic program.

Coach John Mutchner resigns after 25 years of dedicated service.

5:00 p.m.	First freshman decides he can't hack it and heads home.

Panel 1: MR OPUS, THE COMMITTEE WELCOMES YOU AND YOUR COUNSEL TO THIS LITTLE INQUIRY.

Panel 2: WE ASSURE YOU, SIR... OUR GOAL IS ONLY THE TRUTH... AND YOU WILL FIND YOURSELF TREATED WITH ABSOLUTE UNCONDITIONAL...

Panel 3: ...FAIRNESS. RIGHT!

Panel 4: I JUST WET MY SHORTS. SHORT RECESS!

Panel 5: MISTER CANDIDATE... DID YOU NOT SAY IN A SPEECH JULY 29TH THAT "RICH PEOPLE SHOULD BE GROUND UP INTO FREE MEAT LOAF FOR THE UNEMPLOYED?"

Panel 6: I SAID THAT? I DIDN'T SAY THAT! ...DID I REALLY SAY THAT?

Panel 7: WELL... THAT WAS 2½ WEEKS AGO... SO YOUNG AND FOOLISH WAS I IN MY YOUTH...

Panel 8: ...WHAT I MEANT WAS "GOOD JOBS AT GOOD WAGES". HEAR! HEAR!

Panel 9: I'VE ASKED YOU FIVE TIMES TO STOP BADGERING MY CLIENT, SENATOR... PLEASE DO NOT IGNORE ME...

Panel 10: I AM NOT A POTTED PLANT, SENATOR! AND I AM NOT A POTTED PLANT!

Panel 11: ONLY LAWYERS CAN SAY THAT. I...AM NOT A VESSELED VEGETABLE.

Panel 12: ME! I AM NOT A VESSELED VEGETABLE! IM NOT A PICKLED PLUM!!

Panel 13: I THINK THIS HAS GONE ON QUITE LONG ENOUGH... YOU ALL WANT TO KNOW WHAT I BELIEVE IN? I'LL TELL YOU...

Panel 14: I BELIEVE IN REAL BUTTER ON POPCORN... I BELIEVE IN LONG WALKS IN THE RAIN... SAD SONGS AT MIDNIGHT... BOYS-BERRY PIE... TOTAL SURRENDER TO THE COMMUNISTS... AND LONG, WARM SLOPPY KISSES.

Panel 15: AND IF YOU WANNA SLAP A LABEL ON THAT. SLAP AWAY!!

Panel 16: BUS STOP. LIBERAL! DON'T LEFT! LIBERAL! LIBERAL! LIBERAL!

Panel 17: THIS WAS TERRIBLE... NOT ONLY HAD OUR VALIANT CANDIDATE BEEN REPEATEDLY SLAPPED WITH THE 'L' WORD...

Panel 18: OOF GRUNT. PULL. SHUT.

Panel 19: ...BUT THERE WAS WORSE TO REPORT:

Panel 20: PAINT PAINT PAINT. REAL LIBERAL.

Panel 21: AARGH OOF. LIBERAL! LIBERAL! LIBERAL!

Panel 22: IT HAD STUCK.

Panel 23: PHW. LIBERAL! LIBERAL! LIBERAL!

Panel 24: THIS ISN'T PLEASANT SO I'LL JUST SAY IT: WE'RE DROPPING YOU FROM THE MEADOW TICKET.

Panel 25: I'M AFRAID IT'S THE "LABEL" THING... I'M SURE YOU UNDERSTAND.

Panel 26: NOW... WHAT WE NEED IS AN ULTRA-CONSERVATIVE RIGHT-WING NUT FOR YOUR REPLACEMENT...

Panel 27: ...WE GOTTA NUDE THIS PARTY BACK TOWARDS THE MIDDLE.

Panel 28: IT'S A PITTY HITLER'S DEAD!
